Dear NAME:

The Cumberland Valley Amateur Radio Club invites you to assist us with two large communications events in October: the Michaux Team Challenge (MTeC) and the Mercersburg Parade. Please spread the word to hams in your area.

The Michaux Team Challenge event will be held on Sunday, October 28, 2007. The organizers are asking for twelve (12) communication stations, with communicators for at least three (3) stations to be in place before dawn. The rest of the communicators should be in place at 8:00 am. The event is expected to last until dusk. Eighteen (18) or more communicators will be needed.

The Mercersburg Parade will be held on the evening of Monday, October 29, 2007. The parade planners are requesting at least seven (7) communication stations. Communicators should be in place at 6:00 pm and work until the parade is completed, perhaps by 10:30 pm. Ten (10) or more communicators will be needed.

More information about our club's participation in these events can be found online at w3ach.org/MTeC and w3ach.org/MercersburgParade , respectively .

Hams interested in assisting at either of these events should contact Daniel KB3MUN (by email kb3mun@mcglothin.us or by leaving a message at his work phone 717-762-4044).

73,
D. Daniel McGlothin, KB3MUN
